SECOND ANNUAL URBAN CARDIOLOGY
Reducing Disparities in Cardiovascular Care

Target Audience
This interactive continuing medical education activity is designed for cardiologists, internal medicine physicians, family practitioners and healthcare administrators. This conference will consist of a series of 20-minute state of the art lectures, followed by 10 minutes of wide-ranging audience interaction with the speaker, designed to answer practical questions on detection and management of heart disease and its risk factors.

Educational Objectives
Upon completion of this activity, the participant should be able to:
• Describe risk factors for cardiovascular disease which are prevalent in the urban setting.
• Describe recent advances in the diagnosis and treatment of cardiovascular disease.
• Describe differences in management of cardiovascular risk and disease management in the urban population.

Sponsor
This course is sponsored by the Wayne State University Department of Internal Medicine, Division of Cardiology.
